INSTRUCTIONS

Fabspeed Motorsport EVOMSit ECU Tune/Upgrade

1. Remove the factory ECU from your vehicle. *NOTE: You may also supply us with a new replacement ECU, but it will need to be coded to your specific vehicle before being sent to Fabspeed for upgrading.*

If you require step-by-step instructions for removing your ECU, please contact us before proceeding!

2. Print and fill out the second page of this document. *Please be thorough with all details.*
3. Ship your ECU and the completed second page to Fabspeed Motorsport at the address below. Please include your online order number if available.

Fabspeed Motorsport
ATTN: ECU Tune
155 Commerce Drive
Fort Washington, PA 19034

4. We will tune your ECU with the upgraded software, and ship it back to you in 24 to 48 hours.
5. Re-install your tuned ECU and enjoy the improved performance!

REMEMBER: Fabspeed Motorsport will always keep your stock/factory ECU settings on-file, so your vehicle can be returned to stock at any time if you so desire.

If you have any questions, comments, or concerns related to the tuning of your ECU, please contact us!
